## Experience

### 06/2023 - 08/2023

Dai-ichi Viet Nam

#### Intern Java spring boot

Description: During my 2-month internship. I had the opportunity to work on various aspects of web development using Java Spring Boot, ReactJS, and Thymeleaf. This experience allowed me to contribute to the enhancement of the company's website by implementing several features.

Here are some of my notable contributions:

- Implement API GET and POST with Java
- Write some Stored Procedures
- Implement Admin page with Java and Thymeleaf

## Projects

### Smart Home

#### 03/2023 - 05/2023

Description: This project create an intelligent and automated system that can be controlled remotely through a mobile device or computer.

Technologies: ReactJS, NodeJS, React Native, Redux, Git, MongoDB

Github: <https://github.com/tanducCS/Smart-Home-React.git>

Team size: 4

My responsibilities:

- Designed and developed user interfaces using React Native for Mobile frontend
- Configured project's backend to communicate with device control server for seamless device management.
- Optimize Code and Fix bugs

### E-commerce website

#### 03/2023 - 05/2023

Description: Provides a user-friendly ecommerce platform for customers to purchase computers and computer components with ease and convenience.

Technologies: ReactJS, PHP, MySQL, Git.

Github: <https://github.com/kieukhanhquan/e-commerce-web-react.git>

Team size: 4

My responsibilities:

- Designed and developed Page: Home, CategoryProduct, Payment
- Optimize Code and Fix bugs
