

## **Full stack developer Internship**

Duration: 6 months, Vietnam

Link: <https://aivision.vn>

### **Job Description**

AIVision is leading a cutting-edge startup based in Vietnam with a global team across Singapore, Tokyo, Seoul, Ottawa, and New York. Our focus is on developing innovative AI products that leverage the latest technology in computer vision, natural language processing, and data analytics to gain insights, automate processes, and drive decision-making.

Our mission is to revolutionize the industry with AI-powered solutions that enable businesses to optimize their operations and unlock new opportunities for growth. In 2023, we are proud to be releasing a range of AI products made in Vietnam that will deliver unprecedented value to our clients.

At AIVision Vietnam, we are committed to delivering exceptional results and exceeding client expectations through our unparalleled expertise, rigorous quality standards, and customer-centric approach. We are dedicated to partnering with businesses across industries to help them leverage the power of AI and stay ahead of the curve in the rapidly evolving technology landscape.

### **Responsibilities**

- Work with scientist team to understand logic application and design UI/UX with designer
- Deploy web application to production
- Design frontend applications and websites
- Follow scrum meeting, implement and report tasks from leaders

### **Requirements**

- Having some experiences with React, Javascript, html/css
- Good to have experiences with Python, OOP
- Active attitude, be proactive
- English: good for reading skill

### **Benefits**

- Can become a fulltime Fresher/Junior Full stack developer AIVision with good salary after internship period
- Salary (negotiate – good to compare to the market)

This job is good for graduated students or undergraduate students with a high passion in Software development. Please send your cv to AIVision via [contact@aivision.vn](mailto:contact@aivision.vn)
